Summary

Computer Science graduate from Capital University of Science & Technology, Islamabad (CGPA 3.94/4.00, Dean's List). Full-stack developer experienced in building web applications with React.js, Node.js, Python, and Flask, using SQL and NoSQL databases. Built an AI-powered virtual classroom platform integrating the OpenAI API, PostgreSQL, and WebSockets.

Education

Bachelor of Science in Computer Science Sep 2022 – Jul 2026
Capital University of Science & Technology, Islamabad CGPA: 3.94 / 4.00

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Operating Systems, Computer Networks.

Skills

Programming: Python, JavaScript, C/C++, SQL, HTML/CSS
Frontend: React.js, Tailwind CSS, Responsive Design, WebSockets
Backend & APIs: Node.js, Flask, REST APIs, OpenAI API
Databases: PostgreSQL, MongoDB, MySQL/MariaDB
Cloud & Tools: AWS, Git, GitHub, Linux, Google Drive API

Experience

Software Development Intern – Systems Department Jul 2025 – Aug 2025
Oil & Gas Development Company Ltd. (OGDCL), Islamabad

- Developed a Flask-based certificate authentication system in Python, including login flow and backend logic for verifying internal certificates.
- Contributed to the Well Cost System using PHP and MariaDB, working on backend data handling and database queries.
- Built and tested REST endpoints and data flows that connect internal tools to MariaDB.

Software Development Intern Sep 2025 – Nov 2025
Yumaj Enterprises, Islamabad

- Performed software quality assurance and testing on web applications, including test planning and defect identification.
- Worked with development teams to identify and document issues, improving code quality and application reliability.

Projects

ClassMate – AI-Powered Virtual Classroom Platform | *React.js, Flask, PostgreSQL, OpenAI API, WebSockets*

- Built a full-stack virtual classroom platform with automated attendance, real-time collaboration, and AI-powered lecture summarization.
- Developed the React frontend, Flask backend, and PostgreSQL data layer; integrated the OpenAI API.

Cloud Dictionary – Serverless Web Application | *JavaScript, AWS Amplify*

- Built a serverless dictionary application for cloud computing terms with real-time search and a responsive UI, deployed on AWS Amplify.

ExcITe Cup 2026 – Event Landing Page | *JavaScript, HTML/CSS*

- Designed and developed a dark neon landing page for an all-Pakistan university tech competition, featuring a live countdown, seven event sections, and animated stats.

CCTV Backup Application with Google Drive Integration | *Python, Google Drive API*

- Developed a Python application that automatically backs up CCTV footage to Google Drive with scheduled backups and error handling.

Certifications

Frontend: Meta Front-End Developer (Meta), ReactJS & Tailwind CSS Fundamentals (Packt)
Backend & Databases: Node.js & MongoDB (IBM), PostgreSQL Specialization (University of Michigan)
Python & AI: Python for Everybody (University of Michigan), AI For Everyone (DeepLearning.AI)
